STATE INSPECTOR SUPERVISING PLUGGING

AFFIDAVIT

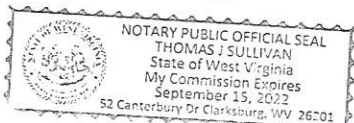

STATE OF WEST VIRGINIA,  
County of MONONGALIA ss:

MATTHEW A. YEARSLEY and KEVIN S. WRIGHT being first duly sworn according to law depose and say that they are experienced in the work of plugging and filling oil and gas wells and were employed by Wolf Run Mining well operator, and participated in the work of plugging and filling the above well, that said work was commenced on the 26<sup>th</sup> day of July, 2021 and that the well was plugged in the following manner:

Sand or Zone Record Formation	Filling Material	Casing/Tubing Size	Casing Pulled	Casing Left In
Cleaned a 3 1/8" hole to 4505'. Tagged plug at 4505'. Cemented the bottom hole plug from 4505' to 1545' using 185 sacks of Expandable Cement with a gas blocker additive. Tagged top of the bottom hole plug at 1545'. Removed 1545' of 4 1/2" casing from the surface to 1545'. Left a total of 3036' of 4 1/2" casing in the hole from 1545' to 4581'. Cleaned a 7 7/8" hole from the surface to 1545'. Due to cement bonding on the 4 1/2" casing cuts were placed in the Clarion Coal Seam (883.7' - 888.5'), at 890', 888.5', 884', 882.5', 881', and 879.5'. Set an intermediate cement plug from 1545' to 1288' with 70 sacks of Expandable Cement and from 1289' to 940' using 110 sacks of Thixotropic Cement with Green Dye. Due to a cement bond on the 8 5/8" a casing, a 26' window was section milled through the Lower Kittanning Coal Seam (817.2' - 822.7') from 807' to 833'. Left 1324' of 8 5/8" casing in the hole from the surface to 807', and from 833' to 1350'. Due to the extreme bond on 8 5/8" casing no additional perforations or rips required per the Sentinel Mine 101C petition. All logs are taken from 10' above the surface. <b>Cemented the hole from 960' to the surface as follows:</b> From 960' to 599' with 110 sacks of Thixotropic with Green Dye. From 599' to the surface and 150 sacks of Expandable Cement. Cement did circulate. A total of 625 sacks of cement were used to fill the hole from 4505' to the surface.				
<b>Coal Seams</b>		<b>Description of Monument</b>		
<u>Clarion</u>	883.7' - 888.5'	77" of 7" casing w/ company name, well number,		
<u>Lower Kittanning</u>	817.2' - 822.7'	permit number and date cemented stated on 7" casing. Well marker will be attached to cement plug at ground level.		

... and that the work of plugging and filling said well was completed on the 17<sup>th</sup> day of August, 2021

And further deponents saith not.
