			<p>Paul L. James, Secty &amp; Treas., 1717 Columbia Road N. W., Washington, D. C.</p> <p>April 16th., 1938.</p> <p>Attention Marie E. Griffith,</p> <p>The Maryland Natural Gas Corporation contracted with Mr. C. W. Thomas, of Harrisonburg, Virginia, to drill the well known as No 2, on the Glower, Parker Farm, Mill Creek District, Hampshire County.</p> <p>Mr. Thomas had associated with him a Mr. Maurice C. Hopkins, of Washington, D. C. who had charge of the well.</p> <p>After drilling to a depth of around 400 feet, so we are informed, they discontinued their drilling and later the Corporation canceled the contract with Mr. Thomas. About that time there was a well started south west of the well above referred to, on the same anticlinal formation, seven and a half miles. Our Geologist feel that this well that is drilling south west of us will prove our territory to some extent. As this is the case the Maryland Natural Gas Corporation will wait to see the result of that well before they continue on the well your File No Ham-1.</p> <p>We understand it will not be many days before we will know the result of the well referred to as drilling on the property joining Maryland Nat. Gas Utilities Corporation.</p> <p>Yours very truly,</p> <p>Maryland Natural Gas Utilities Corporation <i>Paul L. James</i> Secty. &amp; Treas.</p>
