21) EXTRACTION RIGHTS	21)	EXT	RAC	TION	RIGHTS
-----------------------	-----	-----	-----	------	--------

Check and provide one of the following:

Included is the lease or leases or other continuing contract or contracts by which I hold the right to extract oil or gas.

The requirement of Code 22-4-1-(c) (1) through (4). (See reverse side for specifics.)

22) ROYALTY PROVISIONS

Is the right to extract, produce or market the oil or gas based upon a lease or other continuing contract or contracts providing for flat well royalty or any similar provision for compensation to the owner of the oil or gas in place which is not inherently related to the volume of oil or gas so extracted, produced or marketed? Yes No

If the answer above is No, nothing additional is needed. If the answer is Yes, you may use Affidavit Form IV-60.

23) Required Copies (See reverse side.)

24) Copies of this Permit Application and the enclosed plat and reclamation plan have been mailed by registered mail or delivered by hand to the above named coal operator, coal owner(s), and coal lessee on or before the day of the mailing or delivery of this Permit Application to the Department of Mines at Charleston, West Virginia.

DRILLING PERMIT

Date This permit covering the well operator and well location shown below is evidence of permission granted to drill in accordance with the pertinent legal requirements subject to the conditions contained herein and on the reverse hereof. Notification must be given to the District Oil and Gas Inspect

Refer to No. 10) Prior proper district oil and	to the construction of gas inspector 24 hou	f roads, locations and irs before actual perm	pits for any permitte	ted work. In addition, the well operator or his contractor shall notify the
Permit expires	3/2/	1/84		rilling is commended prior to that date and prosecuted with due diligence.
Bond:	Agent: Pla	Casing	9 Fee 3	Mus has have A
10	100		936	Administrator, Office of Oil and Gas

Line Item Explanation

- 1) Date of Application
- 2) Your well name and number
- 3) To be filled out by office of oil & gas
- 4A) "Oil" means natural crude oil or petroleum and other hydrocarbons, regardless of gravity, which are produced at the well in liquid form by ordinary production methods and which are not the result of condensation of gas after it leaves underground reservoirs: "Gas" means all natural gas and all other fluid hydrocarbons not defined as oil.
- 4B) "Shallow well" means any well drilled and completed in a formation above the top of the uppermost member of the "Onondaga Group" or a depth less than six thousand feet, whichever is shallower.
 - "Deep well" means any well drilled and completed in a formation at or below the top of the uppermost member of the "Onondaga Group" or at a depth less then six thousand feet, whatever is shallower.
 - 5) Where well is located
- 6) Before a permit can be issued in a corporation, company partnership, or fictitious name, the name must be registered with the Secretary of State Office
- 7) Use separate sheet if necessary
- 8) Present surface owner at time application is filed.
- (9) Optional
- 11) See Reg. 7.01 relating to code §22-4-1k
- 12) "Coal Operator" means any persons, firm, partnership, partnership association or corporation that proposes to or does operate a coal mine. See Note 24
- 13 & 14) As per §22-4-20; See Note 24
 - 15) Work that will be attempted—A separate Form IV-2 shall not be required for fracturing or stimulating a well where fracturing or stimulating is to be part of the work for which a permit is sought and is noted as such on the Form IV-2 filed in connection therewith.
 - 16) Anticipated formation for which well will be completed
 - 17) Self explanatory
 - 18) Depth to deepest freshwater, and shallowest salt water, taken from nearby wells corrected for differences in elevation
 - 19) All coal seam depths
 - 20) Proposed casing program and cementing refer to Code 22-4-5, 22-4-6, 22-4-7, 22-4-8, 22-4-8a Reg 9.01, 15.01, 15.02, 15.03, 15.04, 25.01, 25.02, 25.03, 25.04
 - 21) Code 22-4-11(c) In lieu of filing the lease or leases or other continuing contract or contracts, the applicant for a permit described herein may file the following:
 - (1)A brief description of the tract of land including the district and county wherein the tract is located;
 - (2) The identification of all parties to all leases or other continuing contractual agreements by which the right to extract, produce or market the oil or gas is claimed;
 - (3) The book and page number wherein each such lease or contract by which the right to extract, produce or market the oil or gas is recorded;
 - (4) A brief description of the royalty provisions of each such lease or contract.
 - 22) Code 22-4-11(d) and 22-4-11(e).
 - Regulation 7.02 of the Department of Mines provides that the original and four copies of Form IV-2 must be filed with the Department, accompanied by (i) a plat in the form prescribed by Regulation 11, (ii) a bond in one of the forms prescribed by Regulation 12, or in lieu thereof the other security allowed by Code §22-4-2, (iii) Form IV-9, "Reclamation Plan", applicable to the reclamation required by Code §22-4-12b and Regulation 23, (iv) unless previously paid on the same well, the fee required by Code §22-4-12a, and (v) if applicable, the consent required by Code §22-4-8a from the owner of any water well or dwelling within 200 feet of the proposed well.
 - 24) The above named coal operator, coal owner(s), and coal lessee are hereby notified that any objection they wish to make or are required to make by Code §22-4-3 must be filed with the Department of Mines within fifteen (15) days after the receipt of this Application by the Department.

		•	nd by any coal owner or coal lessee mit is to be issued within fifteen (15)
	, ,	VAIVER	
amined this proposed well location. If added to the mine map. The undersigned	a mine map exists w ed has no objection	hich covers the are to the work propo	of the coal under this well location has exect of the well location, the well location has been sed to be done at this location, provided, the well a Code and the governing regulations.

DETAILS OF PERFORMIND INTERVALS, FRACTURING OR STIMULATING, PHYSICAL CHARGE, EIC.

1st Stage- Lower Brown Shale perforated with 40 shots from 4165' to 4336', foam frac:

breakdown pressure was 1800 psig, treated with 75% quality foam at 2740 psig. Used
60,000# of 20/40 sand at 4-10 ppg concentrations. Water rate was 10 bb1/min, Nitrogen
rate was 25,000 scf/min, foam rate was 40 bb1/min. Total Nitrogen was 750,000 scf, total
sand laden fluid was 234 bb1s, total fluid was 304 bb1s; ISIP=2200 psig; 5 min SIP=1600 psig.
2nd Stage- Upper Brown Shale perfed from 4102' to 3835'. Foam frac: breakdown pressure
2990 psig, used 75% quality foam at 2750 psig, used 60,000# 20/40 sand at 4-10 ppg, used
750,000 scf Nitrogen and 304 bb1 fluid; ISIP=2150 psig; 5 min SIP=1740 psig.

3rd Stage- Berea perforated from 2566-2576. Foam frac- brokedown at 2490 psig, 75% quality
foam at 2280 psig, used 60,000# 20/40 sand at 4-10 ppg, 825,000 scf Nitrogen and 307 bb1s
fluid, ISIP=2220 psig, 5 min SIP=2080 psig.
