Marion 9431 and Mar 954 are desty different wells: 955 is approximately 1320' South of Mar 94319.

The plat on 9431 was made in this office from an old South Pepo farm map and the tipe location is wrong, actually - 94319 and 954 we would spet at the Same tego location with the 954 topo + Correct Mar 94319 was Cancelled and rebid and plupped with a Correct plat and to save (I thought) confusion we used the Correct Plat and form name when we readvertised and plupped with a Correct the Correct Plat and form name when we readvertised and plupped with a correct the Correct Plat and form name when we readvertised and plupped with a correct and plupped when we readvertised and plupped when we will be able to the correct and plupped when we will be able to the correct and plupped when we will be able to the correct and plupped when we will be able to the correct and plupped when we will be able to the correct and plupped when we will be able to the correct and plupped when we will be able to the correct and plupped when we will be able to the correct and plupped when we will be able to the correct and plupped when we will be able to the correct and plupped when we will be able to the correct and plupped when we will be able to the correct and the

Marion 9438 and Mar 954 are and of Mar 9438

Wells: 955 is approximately 1320' south of Mar 9438

The plat in 9438 was made in this office from an old South Penn farm map untille the location is wrong,

actually: 9438 and 954 we would spot at the same

Lepo location with the 954 topo + Correct, Mar 9438

was Cancelled and rebid and plugged with a Corrected

Plat and to save (I thought) confusion we used the

Corrected Plat and farm name when we readoutised and plugged

The well.
