30-Ft. Sand.	2770	
Pink rock	2800	
Red rock	2915	
Stray Sand (Gordon Stray)	2930	
Gordon Sand	3012	- 3032
Slate and shells	<del>3060</del>	- 3060
Black sand	3060	
Red sand	3080	
Slate	3100	
4th Sand (shell, one bit)	3055	
5th Sand (shell, one bit)	3090	
Gas in shell	3220	
Total depth		3276

Oil and water about 2195 to 2210, about 1200'; filled up.

Gordon Sand about 20', poor dark sand.

4th Sand, only one bit shell.

5th Sand, only one bit shell.

Got gas at 3220' (very little).

Got oil at 3224', filled up over tools; probably be good for 1 bbl.  
oil per day. Did not exhaust by drilling.

Oil in black sand 3224'. Only 1 bit. Filled up with oil over tools.  
From 3224 to bottom black slate. Bottom hole, 3276'.

NOTE: Some of above figures may be "bottoms" instead of "tops".
