PROPOSED LOCATION

Union

District

Wayne

County

Well No. 1

38° 25'  
82° 25'

Nannie Bellomy

Farm

GENTLEMEN:

The undersigned well operator is entitled to drill upon the above named farm or tract of land for oil and gas, having fee title thereto, (or as the case may be) under grant or lease dated 7-26-54, made by Barney and Emma Saunders, to Clifford Mills, and recorded on the 15th day of October, in the office of the County Clerk for said County in Book 45, page 219.

The enclosed plat was prepared by a competent engineer and shows the proposed location of a well to be drilled for oil and gas by the undersigned well operator on the farm and in the Magisterial District and County above named, determined by survey and courses and distances from two permanent points, or land marks.

The undersigned well operator is informed and believes there are no coal operators operating beds of coal beneath said farm or tract of land on which said well is located, or within 500 feet of the boundaries of the same, who have mapped their workings and filed their maps as required by law, excepting the coal operators or coal owners (if any) above named as addressees.

The above named coal operators or coal owners (if any) are notified that any objections they may desire to make to such proposed location, or which they are required to make by Section 3 of said Code, if the drilling of a well at said proposed location will cause a dangerous condition in or about their respective coal mines, must be received by, or filed with the Department of Mines within ten\* days from the receipt of a copy of this notice and accompanying plat by said Department. Said coal operators are further notified that forms for use in making such objections will be furnished to them by the Department of Mines promptly on request and that all such objections must set forth as definitely as is reasonably possible the ground or grounds on which such objections are based and indicate the direction and distance the proposed location should be moved to overcome same.

(The next paragraph is to be completed only in Department's copy.)

Copies of this notice and the enclosed plat were mailed by registered mail, or delivered to the above named coal operators or coal owners at their above shown respective address \_\_\_\_\_ day \_\_\_\_\_ before, or on the same day with the mailing or delivery of this copy to the Department of Mines at Charleston, West Virginia.

Very truly yours,

Clifford Mills

\*Section 3... If no such objections be filed or be found by the department of mines, within said period of ten days from the receipt of said notice and plat by the department of mines, to said proposed location, the department shall forthwith issue to the well operator a drilling permit reciting the filing of such plat, that no objections have been made by the coal operators to the location, or found thereto by the department, and that the same is approved and the well operator authorized to proceed to drill at said location.

October 25, 1954

Mr. Clifford Mills  
Wayne, West Virginia

Dear Mr. Mills:

We are returning your tracing for well No. 1 on the Nannie Bellomy Farm, Union District, Wayne County, for correction.

The tracing indicates that the location is in the Wayne Quadrangle but at Latitude 38 degrees, 25 Minutes as shown, the location falls in the Guyandot Quadrangle. In addition to this error, the courses from the well location to "Ash in Gap" are not given and the footage from "Ash in Gap" to C. O. on ridge, is not shown.

Please have map corrected and returned as soon as possible so that permit can be issued on schedule.

Very truly yours,

Administrative Assistant  
OIL AND GAS DIVISION

November 4, 1954

Mr. Clifford Mills  
Wayne, West Virginia

Dear Mr. Mills:

We are again returning tracing for your location No. 1 on the Nannie Bellomy Farm, Union District, Wayne County as all the instructions in our letter of October 25th, were not observed by Mr. Burgess.

Please Have Mr. Burgess give the courses from the well location to "Ash in gap". The distance of 599 feet is given but only the word "west" for the courses.

Please return corrected immediately as permit which is due to be issued today, must be held up until correct map is on file.

Very truly yours,

Administrative Assistant  
OIL AND GAS DIVISION

November 10, 1954

Mr. Clifford Mills  
Wayne, West Virginia

Way-944

Dear Mr. Mills:

We are sorry to be compelled to return the tracing for the third time for the Nannie Bellomy Well No. 1 but in checking this with the topographic map, we find that the cross locates the well in the Ceredo Quadrangle and since no streams or other topographic features are shown, we are not able to correctly locate the "cross". We tried using the double cross shown to the right of the topographic cross but this locates the well in Butler District, so there was nothing we could do to help you. Mr. Burgess will have to make the correction.

Very truly yours,

Administrative Assistant  
OIL AND GAS DIVISION

TO BE NOTIFIED 24 HOURS IN ADVANCE OF PLUGGING OPERATIONS

Gentlemen:—

The undersigned well operator is about to abandon the above described well and will commence

the work of plugging and abandoning said well on the date inspector is notified (which date shall not be less than five days after the day on which this notice so mailed is received, or in due course should be received by the Department of Mines).

This notice is given you in order that your respective representatives may be present at the plugging and filling of said well. You are further notified that whether you are represented or not represented the undersigned will proceed on that date, or shortly thereafter, to plug and fill said well in the manner required by Section 10, Article 4, Chapter 22 of the Code and given in detail on the reverse side of this notice, in "Work Order."

This notice is being mailed by registered mail to each of you at the above addresses on the above date.

Very truly yours,

Clifford Mills  
Well Operator

NOTE: Upon the abandonment of any well drilled prior to June 1, 1929, a plat prepared by a registered engineer, shall be filed with THREE COPIES OF APPLICATION, (OG-9) AND "WORK ORDER" AND TWO COPIES OF THE WELL RECORD, (OG-10). The map must show the district and county in which the tract of land is located, the name and acreage of same, the name or names of the owners and names of adjacent tracts and the location of the well to be abandoned, determined by survey with the courses and distances of such well from two permanent points or landmarks on said tract, in compliance with Rule 5 of the Rules and Regulations. 02/09/2024

NOTE: In case plugging is not commenced within four months from the date of permit, same shall expire and be of no further force or effect.

NOTE: PERMIT IS NON TRANSFERABLE.

Section 106 of the National Historic Preservation Act  
of 1966, as amended, requires that a report be prepared  
describing and evaluating historic properties to be included  
in the National Register of Historic Places and any other  
historic properties that are included in the report.

The purpose of this report is to provide a description  
and evaluation of the historic properties located within  
the proposed project area. This report is intended to  
provide the Bureau of Land Management with the information  
needed to make a determination as to whether the  
properties are eligible for listing in the National  
Register of Historic Places.

The historic properties identified in this report are  
located within the proposed project area. These  
properties are of historic significance and are  
eligible for listing in the National Register of  
Historic Places. The properties are described and  
evaluated in the following sections of this report.

Property Name	Address	City	State	County	Year Built	Architect	Historic Significance
1. [Illegible]	[Illegible]	[Illegible]	[Illegible]	[Illegible]	[Illegible]	[Illegible]	[Illegible]
