ADDRESS

Well No. 1 - 2 ^{390 40'} _{80° 25'}

R. L. & John Lowe Farm

GENTLEMEN:

The undersigned well operator is entitled to drill upon the above named farm or tract of land for oil and gas, having fee title thereto, (or as the case may be) under grant or lease dated September 13, 1950, made by Dave Lowe, Agent, to W. S. Hinerman, and recorded on the 21st. day of September 1950, in the office of the County Clerk for said County in Book 39-A, page 421.

The enclosed plat was prepared by a competent engineer and shows the proposed location of a well to be drilled for oil and gas by the undersigned well operator on the farm and in the Magisterial District and County above named, determined by survey and courses and distances from two permanent points, or land marks.

The undersigned well operator is informed and believes there are no coal operators operating beds of coal beneath said farm or tract of land on which said well is located, or within 500 feet of the boundaries of the same, who have mapped their workings and filed their maps as required by law, excepting the coal operators or coal owners (if any) above named as addressees.

The above named coal operators or coal owners (if any) are notified that any objections they may desire to make to such proposed location, or which they are required to make by Section 3 of said Code, if the drilling of a well at said proposed location will cause a dangerous condition in or about their respective coal mines, must be received by, or filed with the Department of Mines within ten* days from the receipt of a copy of this notice and accompanying plat by said Department. Said coal operators are further notified that forms for use in making such objections will be furnished to them by the Department of Mines promptly on request and that all such objections must set forth as definitely as is reasonably possible the ground or grounds on which such objections are based and indicate the direction and distance the proposed location should be moved to overcome same.

(The next paragraph is to be completed only in Department's copy.)

Copies of this notice and the enclosed plat were mailed by registered mail, or delivered to the above named coal operators or coal owners at their above shown respective address _____ day _____ before, or on the same day with the mailing or delivery of this copy to the Department of Mines at Charleston, West Virginia.

Very truly yours,

W. S. Hinerman

*Section 3. If no such objections be filed or be found by the department of mines, within said period of ten days from the receipt of said notice and plat by the department of mines, to said proposed location, the department shall forthwith issue to the well operator a drilling permit reciting the filing of such plat, that no objections have been made by the coal operators to the location, or found thereto by the department, and that the same is approved and the well operator authorized to proceed to drill at said location.

Gentlemen:

We are in receipt of three applications to drill Wells Nos. 1, 2 and 3 on the R. L. & John Lowe Tract, Grant District, Wetzel County from W. S. Rinerman, 109 Thompson Avenue, New Concord, Ohio. Copies of the applications and maps of location should have been sent you by the well operator.

If the locations of these wells will interfere with mining operations either actual or projected, please file objections with this office on or before October 28, 1950.

Very truly yours,

Administrative Assistant

October 19, 1950

Mr. W. S. Hinerman
109 Thompson Avenue
New Concord, Ohio

Dear Mr. Hinerman:

We are returning tracing for your Wells Nos. 1, 2, and 3 on the R. L. and John Lowe Farm, Grant District, Wetzel County for additional information.

The Surveyor, Mr. J. M. Cochran has given only one "cross" for three locations and failed to show for which well the cross was intended. Please have him show the three locations by crosses and number each for the well it is intended. Please return as soon as possible.

Very truly yours,

Administrative Assistant

RFD #1
Mannington, West Virginia

Dear Sir:

We have received the tracing back that was sent you for correction on the R. L. and John Lowe Farm and, it seems that you have completely misunderstood our instructions. You have made crosses over each well location.

As explained over the telephone and in our letter, the "crosses" referred to are the marks locating the wells on the U. S. Topographic map and not your tracing. You will note that one cross was placed in the open space to the northwest of your Well No. 3 by Mr. Cochran. This is a topo location mark and you should give the tracing to your surveyor and have him locate three of these marks to represent your wells and number each one to indicate the well it is intended for.

Maps are supposed to be made by registered engineers and, in the future, we would appreciate having the tracings made by a registered engineer. This is not a rule made by this office but is a comparative recent law passed in the state. Please return corrected tracing as soon as possible.

Very truly yours,

Administrative Assistant

PROPOSED MANNER OF PLUGGING AND FILLING WELL

(REQUIRED BY RULES AND REGULATIONS)

WEST VIRGINIA DEPARTMENT OF MINES

OIL AND GAS DIVISION

WORK ORDER

Well to be plugged and filled as follows:

Filled neat Cement.	640 - 610
10' Clay	610 - 570
Neat Cement	570 - 530
Continue Clay-	
5 feet Crushed Stone	530 - 525
Filled with Clay.	525 - 0

Erect marker such as is described in Rule 18, 1931 Regulations

To the Department of Mines
Coal Owner or Operator,
Lease or Property Owner.

Gentlemen:

This "work order" is submitted for your approval and concurrence and unless notified of your disapproval or non-concurrence, the undersigned will proceed with the plugging and filling of said well in the above described manner on the date stated in the notice of intention to plug and abandon the said well on opposite side of this sheet.

Very truly yours,

Well Operator.

No objections have been filed by the coal owner or coal operator, or any available adjacent lease or property owners or interposed by the Department of Mines to the manner herein described for the plugging and filling of the well above mentioned. Therefore, the same is hereby approved this

10/06/2023

21st day of March, 1951, 19

DEPARTMENT OF MINES
Oil and Gas Division

By: C. H. Hall

NOTE: This "work order" shall be filed in triplicate, one copy for the files of the Department of Mines; one to be approved or corrected and returned to the well operator as his authority for plugging said well; and one for the well inspector.

Gentlemen:— NOTIFY INSPECTOR OLIVER W. LINEBERG - MORGANTOWN - TELEPHONE 5827
24 HOURS IN ADVANCE OF PLUGGING DATE

The undersigned well operator is about to abandon the above described well and will commence the work of plugging and abandoning said well on the *15* day of *March*, 19 *51* (which date shall not be less than five days after the day on which this notice so mailed is received, or in due course should be received by the Department of Mines.)

This notice is given you in order that your respective representatives may be present at the plugging and filling of said well. You are further notified that whether you are represented or not represented the undersigned will proceed on that date, or shortly thereafter, to plug and fill said well in the manner required by Section 10, Article 4, Chapter 22 of the Code and given in detail on the reverse side of this notice, in "Work Order."

This notice is being mailed by registered mail to each of you at the above addresses on the above date.

Very truly yours,

W.S. Hinerman
Well Operator.

NOTE: Upon the abandonment of all wells drilled prior to June 1, 1929, a plat prepared by a competent engineer, showing the district and county in which the tract of land is located, the name and acreage of same, the names of the owners and adjacent tracts, and the location of the about to be abandoned well, determined by survey, and the courses and distances of such well from two permanent points or landmarks on said tract, shall be submitted with this notice.

Gentlemen:

In connection with our telephone conversation of today you have no doubt filed application forms with the Department of Mines, Charleston, West Virginia. On such forms a description of your method of plugging the well should be shown. We understand the legal procedure is to send us a copy of the forms filed with the West Virginia Department of Mines.

If you supply us with these forms and if the plugging is to be properly done, we presume we shall have no reason to object.

Very truly yours,
