Dear Mr. Perrin:

Your letter of February 25, with reference to the Well location described above and cancellation of Permit WET-393 is correct. However, after the Permit was cancelled no further records were filed by you. In other words, if you now wish to plug the Well, it must have, at some time, been reopened.

We do not have a record of the redrilling. Can you furnish this to complete your application for Permit to abandon the Well?

Dear Mrs. Griffith:

In reply to your letter dated February 28, 1964, please be advised that this well was never abandoned and has always been open. The mistake of terminology was used in our letter to you of the 25th. Under previous correspondence concerning this well, our letter to your department dated June 16, 1954, requested that Permit No. WET-393 was to be cancelled, as we did not intend to reopen this well at the present time; this letter was our basis for mentioning the word "reopen".

We hope that this clarifies your question in regard to this matter. Thank you for your cooperation and indulgence in the preceding.
