Mr. Robert Dodd, Deputy Director
Department of Mines
Oil and Gas Division

Dear Mr. Dodd:

I received your correspondence of 2/9/78 regarding completion drilling records for the Kennedy Well, Permit #WOO-751, and the Workman Well, Permit #WOO-738.

Please be advised that Associated Minerals, Inc., has turned over the operation of all of their wells to Beal Associates. The Kennedy Well is scheduled for some additional work in regard to the completion as soon as the weather permits and it would be advantageous to us to finish this work before the final inspection as we still have some work to do on the location.

Regarding the Workman Well, AMI has never completed this well at all. In fact, it has not been fractured. It is, however, scheduled to be completed as soon as possible.

If this response is satisfactory for you, I shall note for our records that you are to be provided with a completion report immediately upon cessation of the completion activities. Should this response not be satisfactory, please advise and I shall undertake to comply to your satisfaction.

Respectfully,

Walter H. Allen
